IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

#1
03/28/03
AS

Applicant(s) : ENDO et al.

Serial No. : 10/033,673

Group Art Unit: 1713

Filed : December 28, 2001

Examiner: Helen Lee PEZZUTO

For: METHOD FOR PRODUCING COPOLYMER OF ALKYL VINYL
ETHER AND MALEIC ANHYDRIDE AND COPOLYMER OF
ALKYL VINYL ETHER AND MALEIC ANHYDRIDE

Commissioner of Patents
Washington, D.C. 20231

RECEIVED
MAR 27 2003
10 1100 MAIL ROOM

RESPONSE TO REQUIREMENT FOR RESTRICTION

Sir:

In response to the Office Action dated February 24, 2003 constituting a requirement for restriction in the above-identified application, Applicants hereby provisionally elect Group I. Claims 1-19 are readable on the elected group. The election is made with traverse.

The MPEP states "If the search and examination of an entire application can be made **without serious burden**, the examiner must examine it on the merits, even though it includes claims to independent or distinct inventions." See MPEP §803 (emphasis added). Applicants respectfully submit that a search for the subject matter of both groups of distinct inventions would pose no "serious burden."

There would be no serious burden because the inventions of both Group I and Group II can be classified in the same class (class 526), as noted by the February 24, 2003 Office Action itself. Accordingly, both Group I and Group II may be searched simultaneously by searching class 526. Applicants also respectfully submit that it would be necessary to search both

Group I and Group II in order to ensure a complete search for either group and to have a proper examination on the merits.

Applicants respectfully request reconsideration and withdrawal of the election/restriction requirement. In the event that the Examiner disagrees with the reasons set forth above, action on the merits of claims 1-19 (Group I) is respectfully requested.

Respectfully submitted,

Matthew K. Blackburn
